MISSION

Why Sybric exists

Sybric delivers independent, enterprise-grade network and security consulting — helping organizations build infrastructure that is secure, resilient, and aligned with business strategy.

BRAND CHARACTER

Expert	Precise	Trustworthy	Professional
20 years of hands-on CCIE-level experience. We speak with authority.	Clear, direct communication. No jargon for its own sake.	Vendor-neutral advice. We recommend what is right for the client.	Corporate tone in all communications. Serious and solution-oriented.

APPROVED VERSIONS

Always use the original logo files. Never recreate the wordmark by typing. The gradient and letterform are fixed assets.

		Minimum size Print: 25mm Digital: 120p
On white / light backgrounds	On dark backgrounds	Width minimum

✓ DO

Use on white, dark (#120904), or neutral light backgrounds. Maintain clear space equal to the height of the 'S' on all sides. Keep the tagline 'System Bricks' always visible.

✗ DON'T

Never stretch, rotate, recolor, add effects, place on busy photos, use on colored backgrounds, or remove the 'System Bricks' tagline. Never recreate by typing.

✓ Write like this

"We design network architectures that reduce risk and improve operational efficiency." Clear, confident, outcome-focused.

✗ Not like this

"We leverage cutting-edge synergies to deliver next-gen solutions!" Avoid buzzwords, exclamation marks, and vague claims.

KEY PRINCIPLES

Lead with outcomes	Cite credentials	English for international	Short sentences
Always state what the client gains — not just what the technology does.	CCIE #37316, 20 years experience — these build trust. Use them where relevant.	Use English for website and proposals. Turkish for local correspondence.	Technical clients are busy. Get to the point. One idea per sentence.

APPROVED MATERIALS
